Kansas City, MO | (913) 850-9770 | mattbakerk@gmail.com | [LinkedIn](#) | [Portfolio](#)

Experience

PHP Developer   **Nov 2021 – Present**
Wolfe Automotive Group LLC   *Kansas City, MO*

- Wrote server-side and client-side code for WordPress plugins and themes using PHP, HTML, CSS, and JavaScript.
- Wrote VIN and license plate scanner using OCR technology and JavaScript to significantly improve company's process of checking in customer vehicles for service.
- Created plugin and theme updater using WordPress's filter hooks to keep plugins in sync across dealership sites.
- Created store locator to greatly improve scheduling service appointments across several stores.

Programmer   **Jan 2017 – Oct 2021**
Creekstone Farms Premium Beef LLC   *Arkansas City, KS*

- Used PHP and JavaScript to design web-based reports for employees.
- Wrote PHP scripts to send automated reports and fix data within production database.
- Led an effort to update codebase from PHP 5.4 to PHP 8 and redesigned the system in Laravel to improve maintainability, security, and performance.
- Used C# and ASP.NET to write and maintain the New Product Request application, greatly improving the process for employees to create new products.
- Developed automated process for Walmart Inc. to pull live data to SFTP server for the SAP.
- Trained coworkers on employee dashboard to improve effectiveness and instigated suggestions on improvements.
- Created views and automated reports in ERP system using SQL Server.
- Mentored new programmers and trained them on the dashboard application and technology stack.
